## What is Moodle?

Moodle is a course management system (CMS) - a software package designed to help educators create quality online courses. Such e-learning systems are sometimes also called Learning Management Systems (LMS) or Virtual Learning Environments (VLE).

## How do I get to Moodle?

Go to the Bacone Website (www.bacone.edu) and select the online@bacone link on the lower right side of the page.

## How do I get access to Moodle?

The Moodle administrator at Bacone College creates a username and password for you.

## How do I get to my classes in Moodle?

Once you've connected to Moodle, you have to find the courses that you want. Each of the courses that you are taking are associated with an area of study. For instance Mathematics courses have a course number that begins with MTH. Management courses begin with MGT.  Once you have logged onto Moodle, you'll be taken to your homepage.  This page is tailored to you and will soon have links to all your classes.

In the lower right part of the screen, you will find the course categories list. Please select the category associated with your class.   A list of all available classes will be displayed.  Select the course and section that you need from the list.  After selecting, you will be prompted so that you make sure you've selected the correct class.  If it is correct, please select yes and you will be enrolled.   Repeat this process for all of your classes.

## Once I've enrolled, how do I get to my classes in Moodle?

After you login to Moodle,  you are taken to your personal homepage.  Once you've enrolled in your courses, your homepage will have links to each of them in the lower left corner of the page… under My Courses.
