

July 7, 2011

I want to welcome you to Bacone College. What a great time to be a WARRIOR! For new students coming to Bacone in the fall, we are excited you have chosen to seek your academic degree with us. For the returning students, we are also excited that you are continuing to be a part of the Bacone community of learners. We want your academic journey to be a rewarding and fruitful experience.

This letter is to help you make a smooth transition to Bacone this fall. Along with this letter you will receive an academic calendar which has many of the important dates you will need to know. The first date you need to be aware of is the “move-in” date. Based on your athletic or academic affiliation, you will have a specific move-in date. Please make plans to come on that date. Those without a specific move-in date assigned to them will need to be on campus August 8th (new students) or August 9th (returning students). If you are not a residential student, you will need to complete your enrollment process between July 25th-27th. Orientation will be August 10th and classes begin August 11th.

On move-in days, all students will need to report to the Palmer Center (#15 on the campus map) during the times specified. At the Palmer Center gym, Bacone representatives will be on hand to make sure you have all the necessary documents and processes complete prior to receiving your room key. Be aware that the enrollment process can take some time, especially if you are missing items. There is an enrollment checklist you will receive that outlines all of the documents and processes you will need to complete or have on hand. You can complete many of those prior to arriving on campus and we encourage you to take the time now to complete these items. The more items on the checklist you can get completed before your arrival, the quicker you can progress through the enrollment process. If you have any questions you can call 1-888-682-5514 and request assistance.

Once again, I am proud you have chosen Bacone and we look forward to serving you.

Dr. Jonathan Thomason
Associate Dean of Faculty
