What can I do with my major...

PROGRAM DESCRIPTION

The mission of the baccalaureate degree in Christian Ministry is to provide the theological foundation needed for those individuals committed to work in the field of mission and ministry. The program design focuses on the opportunity to engage in practice while learning. This postmodern approach of reflection in action is thought to be essential for preparing students to minister in our fast paced global society.

Students seeking this degree will have a variety of courses available to prepare them for a life journey that involves serving humanity through a church related setting. CM studies concentrate on the development of certain basic skills useful for both lay and ordained leaders.

Bacone offers the following degrees in CM: Associate of Arts in CM and Bachelors of Arts in CM with concentration in the following areas: Worship Arts, Small Groups and Christian Counseling.
