What can I do with my major...

PROGRAM DESCRIPTION
The Elementary Education program consists of coursework and field experiences leading to a Bachelor of Arts Degree and application for Oklahoma licensure. This program provides a broad academic background and the specific professional education knowledge and skills necessary to prepare teacher candidates to teach children in First through Eighth Grades. Many courses have extensive fieldwork and are frequently taught at public school sites. Such clinical experiences enable the teacher candidate to observe and assist in school classrooms throughout the college experience. Full-time student teaching provides guidance and support from experienced cooperating teachers and a college supervisor as gradual responsibility is assumed for planning and teaching in an elementary, intermediate or middle school classroom.

SAMPLE CAREERS
- Instructional Coordinators
- Librarians
- Middle School Teachers
- Preschool and Kindergarten Teachers
