BACONE COLLEGE COVID POLICY:

Quarantine if you have been in close contact (within 6 feet of someone for a cumulative total of 15 minutes or more over a 24-hour period) with someone who has COVID-19, unless you have been fully vaccinated. People who are fully vaccinated do NOT need to quarantine after contact with someone who had COVID-19 unless they have symptoms. However, fully vaccinated people should get tested 3-5 days after their exposure, even if they don't have symptoms and wear a mask indoors in public for 14 days following exposure or until their test result is negative.

What to do

- Stay home for 14 days after your last contact with a person who has COVID-19.
- Watch for fever (100.4°F), cough, shortness of breath, or other symptoms of COVID-19.
- If possible, stay away from people you live with, especially people who are at higher risk for getting very sick from COVID-19.

After quarantine

- Watch for symptoms until 14 days after exposure.
- If you have symptoms, immediately self-isolate and contact your local public health authority or healthcare provider.

However, anyone who has had close contact with someone with COVID-19 and who meets the following criteria does NOT need to stay home.

Someone who has been fully vaccinated and shows no symptoms of COVID-19. However, fully vaccinated people should get tested 3-5 days after their exposure, even they don't have symptoms and wear a mask indoors in public for 14 days following exposure or until their test result is negative.

If you have any questions regarding this policy please speak with your advisor, the VP of Student Affairs, Kelly LaChance, or the Human Resources Director, Will Lowe.

Thank you for your cooperation as we take the CDC recommended steps to maintain a healthy and safe campus.
